Annuities issued in all states except New York by Transamerica Life Insurance Company, Cedar Rapids, Iowa and in New York by Transamerica Financial Life Insurance Company, Harrison, New York. Annuities are underwritten and distributed by Transamerica Capital, Inc. References to Transamerica may pertain to one or all of these companies.

Annuities may lose value and are not insured by the FDIC or any federal government agency. They are not a deposit of or guaranteed by any bank, bank affiliate, or credit union.

Withdrawal Options:

Withdrawal Amount Available Annually Without Surrender Charge: 10% of remaining premiums still subject to premium-based charges plus all remaining premiums no longer subject to premium-based charges. The remaining premium-based charges will be reduced by a surrender charge assessed on an excess withdrawal.

Systematic Payout: Monthly, quarterly, semi-annual, or annual withdrawals (\$50 minimum).

Nursing Care and Terminal Condition Waiver: After the policy issue date, you may withdraw all or part of the policy value if you or your spouse were to be confined to a hospital or nursing facility for 30 consecutive days, or diagnosed with a terminal condition with less than one year to live (a minimum withdrawal of \$1,000 applies). Any surrender charges waived will reduce the remaining premium-based charges.

Unemployment Waiver: Withdrawals from your policy under certain conditions due to termination, layoff, or other involuntary job loss. A \$5,000 minimum cash value is required at time of surrender. Any surrender charges waived will reduce the remaining premium-based charges.

Before investing, consider a variable annuity's investment objectives, risks, charges, and expenses. Go to transamerica.com for prospectuses containing this and other information. Please read them carefully.

What is a variable annuity?

Variable annuities are long-term, tax-deferred vehicles designed for retirement purposes and contain underlying investment portfolios that are subject to market fluctuation, investment risk, and possible loss of principal.

Withdrawals

Withdrawals of taxable amounts are subject to ordinary income tax and may be subject to a 10% additional federal tax if withdrawn before age 59½.

Spousal continuation

If a surviving owner is the deceased annuitant's spouse, they may elect to become the new annuitant and continue the contract (the policy continues tax-deferred). We will waive the remaining premium-based charges on premiums received prior to the date of death, but any premiums received after the continuation date will be charged their appropriate premium-based charge based on the cumulative premiums paid to date from the original issue date.

Living benefits

Because the living benefit fee is a percentage of the withdrawal base, the amount of the fee will fluctuate as the withdrawal base increases or decreases. Even in the event your policy value declines significantly, the fee amount could be a much higher percentage of your policy value.

On the maximum annuity commencement date, the living benefits terminate. By annuitizing the policy on the maximum annuity commencement date, you will have the option to receive lifetime payments that are no less than the withdrawals allowed by the living benefits. The maximum annuity commencement date is generally the annuitant's age 99.

Investment options are restricted. Please see prospectus for details.

Retirement Income Choice® 2.0

The living benefit fee percentage may increase beginning with the fifth living benefit anniversary with an automatic step-up. The maximum living benefit fee percentage allowed is 0.75% higher than the initial living benefit fee percentage.

Retirement Income Max® 2.0

The living benefit fee percentage may increase beginning with the first living benefit anniversary with an automatic step-up. The maximum living benefit fee percentage is 0.75% higher than the initial living benefit fee percentage.

Risk

If you elect either the *Retirement Income Choice® 2.0* or *Retirement Income Max® 2.0*, Transamerica requires your policy value to be allocated into designated investment options, which may include a volatility control strategy. **In periods of high market volatility, volatility control strategies could limit your participation in market gains; this may conflict with your investment objectives by limiting your ability to maximize potential growth of your policy value and, in turn, the value of any guaranteed benefit that is tied to investment performance.** Volatility control strategies are intended to help limit overall volatility and reduce the effects of significant market downturns during periods of high market volatility, providing policy owners with the opportunity for smoother performance and better risk-adjusted returns. **You pay an additional fee for the living benefits which, in part, pay for protecting the living benefit base from investment losses. Since the living benefit base does not decrease as a result of investment losses, volatility control strategies might not provide meaningful additional benefit to you.** If you determine that underlying funds with volatility control strategies are not consistent with your investment objectives, there continues to be other designated investment options available under the *Retirement Income Choice® 2.0* and *Retirement Income Max® 2.0* that do not invest in funds that utilize volatility control strategies.

Additional information

All guarantees, including optional benefits, are backed by the claims-paying ability of the issuing insurance company.

Same sex couples have the right to marry in all states. The parties to each marriage that is valid under the law of any state will be treated as a spouse as defined in this policy. Individuals in other arrangements, such as civil unions, registered domestic partnerships or other similar arrangements, that are not recognized as a valid marriage under relevant state law will not be treated as married or as spouses as defined in this policy for federal tax purposes. Please contact a qualified tax advisor prior to purchasing to discuss how exercising spousal continuation benefits under this contract or any living benefits may affect you. Please see the prospectus for more details.

Additional living benefit and death benefit options are available with this variable annuity.

All policies, living benefits, and forms may vary by state, and may not be available in all states.

Living and death benefits are referred to as riders in the contract.
