The performance data presented represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Please see transamerica.com for performance data current to the most recent month-end. The investment return and principal value of mutual funds will fluctuate over time so that shares, when redeemed, may be worth more or less than their original cost.

The fund is newly organized. The fund acquired the assets and assumed the liabilities of two Transamerica Partners funds, including Transamerica Partners Investor Balanced Portfolio (the "predecessor fund"), on September 15, 2017, and the predecessor fund is the accounting and performance survivor of the reorganizations. This means that the predecessor fund's financial and performance history became the financial and performance history of the fund. In the reorganization of the predecessor fund, shareholders of the predecessor fund received Class R shares of the fund. The performance of Class R shares includes the performance of the predecessor fund prior to the reorganization, and has not been restated to reflect the estimated annual operating expenses of Class R shares. Please read the prospectus for more information.

Net asset value (NAV) returns include reinvestment of dividends and capital gains but do not reflect the deduction of any sales charges. There are no sales charges for Class R shares. Class R shares are available only to eligible retirement plans.

The gross expense ratios for this fund are 1.15% and 0.66% for Class R and I3 shares, respectively. The net expense ratios for this fund are 1.10% and 0.50% for Class R and I3 shares, respectively. Contractual arrangements (if applicable) have been made with the fund's investment manager, Transamerica Asset Management, Inc. (TAM), through May 1, 2019.

Performance figures reflect any fee waivers and/or expense reimbursements by the Investment Manager. Without such waivers and/or reimbursements, the performance would be lower. Future waivers and/or reimbursements are at the discretion of the Investment Manager.

S&P 500® and Bloomberg Barclays US Aggregate Bond Index are unmanaged indices used as general measures of market performance. It is not possible to invest directly into an index. Calculations assume dividends and capital gains are reinvested and do not include any managerial expenses.

The price of equity securities fluctuates based on changes in a company's financial condition and overall market and economic conditions. If the market prices of the equity securities owned by the fund fall, the value of the fund will decline. Fixed income securities have several risks including fluctuations in market value, changes in interest rates as the values will decrease as interest rates rise, and issuers defaulting on their obligations to pay interest or return principal.

Shares may be sold (or "redeemed") on any day the New York Stock Exchange is open for business. Proceeds from the redemption of shares will usually be sent to the redeeming shareholder within three business days after receipt in good order of a request for redemption. However, Transamerica Funds has the right to take up to seven days to pay redemption proceeds, and may postpone payment under certain circumstances, as authorized by law.

Mutual funds are subject to market risk, including the loss of principal. Past performance is not indicative of future results.

Mutual Funds are sold by prospectus. Before investing, consider the funds' investment objectives, risks, charges, and expenses. This and other important information is contained in the prospectus. Please go to www.transamerica.com or contact your financial professional to obtain a prospectus or, if available, a summary prospectus containing this information.
