**Transamerica Structured Index Advantage Annuity Offers Investors
More Certainty with Upside Growth and Downside Protection**

Transamerica announces the launch of the *Transamerica Structured Index AdvantageSM Annuity*, a registered index-linked annuity that is designed to create more certainty for investors in uncertain markets. For investors who are seeking upside potential returns and are less willing to stay invested during down markets, the *Transamerica Structured Index Advantage Annuity* offers the opportunity for market gains along with a buffer that provides a level of protection from market losses.

Transamerica created the new, cost-effective annuity to give investors more certainty about when to invest, and ways to lock in potential gains while protecting against potential losses. The *Transamerica Structured Index Advantage Annuity* offers financial professionals and investors the flexibility to choose from unique and simple crediting strategies that are designed to help investors meet their individual needs.

“The *Transamerica Structured Index Advantage Annuity* gives investors the ability to create more certainty when investing during uncertain times,” said Jamie Ohl, President of Transamerica’s Individual Solutions division. “Investors are worried about interest rates, inflation, market volatility and the immediate future of our economy. The *Transamerica Structured Index Advantage Annuity* can create more confidence for investors by easing some of their concerns about investment timing and future market performance. Investors who are seeking to accumulate more assets for retirement have the ability to capture upside growth potential while experiencing some protection from potential market downswings.”

The *Transamerica Structured Index Advantage Annuity* is a tax-deferred annuity that enables investors to accumulate potential earnings for the future. This investment helps create more certainty for investors by offering growth when markets perform well and protection when they don’t.
